

BEYOND THE MIDWEST FOCUSING ON THE OPPORTUNITIES

TABLE OF CONTENTS

	Page
Report.....	1
EXECUTIVE SUMMARY	3
Introduction	3
Market/Demand Outlook.....	4
Supply Alternatives	6
Pipelines	8
Outlook for Basis Differentials.....	10
MARKET/DEMAND OUTLOOK: ‘GROWING’	15
Electrical Generation	16
Role of New Gas-Fired Power Plant Projects	17
Prospects for Increased Gas Sales for New Electricity Generation	21
Ongoing Gas Competition Potential from Other Fuels	24
Base Load vs Peaking: How Infrastructure will Handle Peaking Needs.....	27
Impact of High Pricing on Market Forecasts	29
Traditional Gas Markets.....	31
Potential New Markets: Maritime and Other.....	32
Driving Factors for Residential Markets	33
Commercial Market Prospective	36
Potential for Increased Gas Sales to Industrial Customers	39
Gas Storage Markets	42
SUPPLY ALTERNATIVES: ‘NEW CHOICES’	45
Emergence of Maritime Gas Supply: How Big and When?.....	46
Awakening of LNG	48
Midwest Supply Hub	51
Long Haul from Western Canada	54
Gulf of Mexico Regional Supply.....	56
PIPELINES: ‘GET READY TO RUMBLE’	61
Capacities and Load Factors of Existing Pipelines	62
Pipeline Market Share of Delivery to East.....	64
TransCanada, Iroquois, and Portland Capacity Utilization.....	65
Recent Arrivals: ‘One-Two Punch of Alliance/Vector’	68
Timing of New Pipelines and their Economics	72
Regulatory and Political Issues: ‘Influential Factors’	76
The Potential Interconnection of East Coast Gas with Quebec	77

OUTLOOK FOR BASIS DIFFERENTIALS	81
Differentials Examined	83
Boston/Henry Hub.....	84
New York/Henry Hub	85
Goldboro/Henry Hub	86
AECO/Henry Hub.....	87
APPENDICES	88
Appendix A: New Power Plant Proposals	88
Appendix B: Gas Storage	91
Appendix C: Pipeline Proposals.....	93
